

STANDARD KITCHEN CABINET PULL PLACEMENT

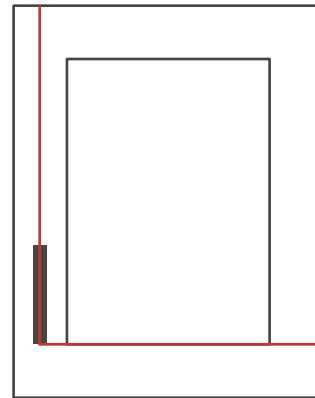

For standard cabinets between 12 and 36 inches,
the most common pull sizes from center to center are:

3 in	4 in	96 mm	128 mm
------	------	-------	--------

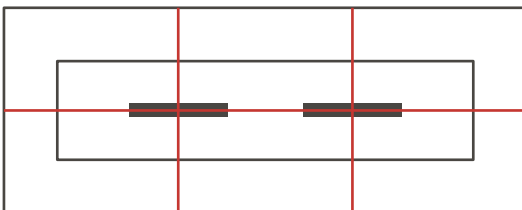

BASE KITCHEN CABINET

For standard base cabinets, place pulls
2 ½–3 inches from the upper corner
opposite to the hinge.

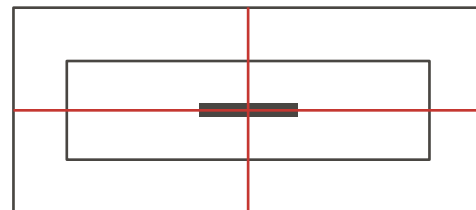

TALL KITCHEN CABINET

For standard tall cabinets, place
pulls 2 ½–3 inches from the bottom
corner opposite to the hinge.

WIDE DRAWER CABINET

For drawers 24 inches or wider, divide
the drawer into thirds, and place the
pulls in the center of each line.

STANDARD DRAWER CABINET

For standard and small drawers, place the
pull directly in the center of the drawer.
